The above-mentioned game is approved for use in New Jersey as an amusement game, as defined in the Amusement Game Licensing Law, N.J.S.A. 5:8-100 et seq. ("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This approval is based upon information supplied by the applicant at the time of application for certification. The game must be operated in accordance with the specifications submitted and the terms of this certification. Any modification of the manufacturer's specifications or the specified method of play immediately voids this certification.

It is unlawful to license or operate any amusement game in the State of New Jersey without a valid Certification of Permissibility or in a manner not in accordance with Certification of Permissibility issued for the game. This Certification of Permissibility contains three pages. This is page 1 of 3.

GAME DESCRIPTION

Slam A Winner is a single player drop down game with a progressive jackpot feature. The player initiates game play by inserting coin(s) or tokens(s) in the acceptor. Once the proper amount has been inserted the player presses the “Slam” button which releases the ball into the play field. The object of the game is for the to pass ball through one of 21 prized valued holes in the rotating play field. If the ball does not pass directly through a prize hole on release, it will role around the rotating play field until it passes through a prize hole.

The progressive jackpot feature is a single hole located on the play field which is labeled “Jackpot”. If the ball passes through this hole the amount displayed on the “Jackpot Value” screen is awarded. All awards are dispensed as tickets to the player for prize redemption.

CONDITIONS

- 1.) The maximum price to play shall not exceed values set forth in N.J.A.C. 13:3-3.4.
- 2.) Payout must occur immediately upon a win.
- 3.) The game play field shall be clean and free of debris.
- 4.) Game shall be installed and maintained according to manufacturer specifications
- 5.) The device is being operated by the following EPROM(S):
